APPENDIX 6

Question 23: Looking ahead to 2036, how would you like Wroughton and Wichelstowe to look?

Responses to paper survey.

Comments
To maintain village atmosphere while providing health/community services fit for purpose and meeting changing needs
The same as it does now
No new housing development on green land
Well-cared for area with no litter. A safe place for all families and children
Wichelstowe being taken under Swindon's umbrella
Most suitable for living in UK
Still a small village
For Wroughton to retain its village identity as Wichelstowe is likely to develop into a town in its own right
Better shopping area. The Ellendune is tatty and dated. Need to try to maintain a village ethos
The same local feel, not expanded any further
Better built houses instead if hundreds of Barratt boxes and Soviet style design
No more massive housing developments. Greener, improved walking and cycling routes, less car traffic
Not to become part of Swindon
For utilities companies to finish roadworks properly and not easy fixes. Tidy and safe
More like a village
A thriving shopping centre at the Ellendune. Improved infrastructure. Village boundaries maintained as they are now but with Wroughton separate to Wichelstowe
The same size - no larger
As they are with the green area still between them
Clean andsafe with a protected parish plan
Community facilities appropriate to the number of people who want to use them
Shops around Tesco to be made better
Less traffic. No more housing. More healthcare. Doctors, dentist and pharmacy
Better drainage, protecting areas against climate change
More local shops and businesses. No more building on green spaces
Less graffiti and still having a village feel
No more housing
Should still look like a village independent of Swindon
Level paths. No more new housing estates
Wichelstowe having its own doctors surgery
Like Cirencester but smaller. Wroughton is pretty and the only thing we look forward to about Wichelstowe is the new canal walk to Waitrose

Comments

More healthcare, especially new surgery in Wichelstowe

I would like Wroughton to maintain a safe, friendly village feel

I would like to think it would not have spread any further

Green with better access to healthcare

Keep Wroughton to its present size and keep the character of the village

Like a village, not absirbing any more of Swindon

For Wroughton to retain its village identity

No more houses and another doctors and dentists. Put some poo bags by bins for owners who forget

As separate regions. Wroughton is a village and Wichelstowe is a suburb of Swindon

Totally separate entities

No more new housing developments. Clean and tidy village

Like the village it once was with no more sprawling developments

Stop building more houses - keep Wroughton rural

Not overdeveloped and with plenty of green space

Connected through more events

No more large developments. The village is now large enough

More plants and trees and better roads and paths

No bigger in size

Refreshed, clean and tidy with usable roads and footpaths

Still separate from Swindon, plenty of green spaces, vibrant local shops, no large developments and the old Co-op turned into retail for local businesses

As it is now - with heritage maintained and a community spirit in the village

It should remain a discrete village with facilities that do require going elsewhere

Vibrant, well-maintained businesses and infrastructure

About the same size - no further developments outside the existing boundaries

The same as it is now

Still an independent village and not part of Swindon

Less houses

Still have a village feel

More peaceful

Wroughton should still look like a village and not get swallowed up by Swindon

More inviting. Currently North Wroughton is suffering with roadworks and works on the M4 bridge

More like a village

Rurual and independent from Swindon

No more developments and village identity retained

An active, friendly, local community with something for all ages. Better internet options in Wroughton and East Wichel as we're limited for providers

Separate parishes

Not like a mega city with traffic jams and insufficient infrastructure

Comments

Green with low traffic and somewhere for families to thrive

As a village separate from Swindon

The same but with more houses and green spaces

As it is now. No more expansion

Affordable leisure centres for young and old

Would like Wroughton to still maintain the village history and community feel

No bigger than now

Less dog fouling

No bigger than it is already. More medical facilities. Cleaner streets, roads and footpaths. Better street lighting, especially at Weir Field

Same as how it is now

No more development without the facilities to cope with the people

No large housing developments

Tidy and green with good healthcare

Wroughton not Wichelstowe

Tidy and clean

Planning that is sympathetic to climate change

As it is now - already too many homes for amenities to cope

More doctors

To keep its village identity

Recycling 'grey' water as a standard in modern housing

Not over developed - village character needs to be protected

I would like to be separate

I would like Wroughton and Wichelstowe to be separate parishes

Don't build any more houses after the ones currently being built are finished

No more building in Wroughton - village to stay the same

Less building

A new doctor surgery. Marlborough Rd safetr for pedestrians. Brimble Hill wall fixed

An individual area, not urban sprawl

Keep the village character and vibe

For Wroughton to continue to be a village. Any more growth will ruin the beautiful green spaces

Green with lots of trees, habitats and parks

Separate

Well kept

No bigger

Fully functioning, no roadworks, a healthcentre in Wichelstowe. Does Wroughton Monthly need to become Wroughton and Wichelstowe Monthly?

Regular meetings and feedback book

As it does now. More housing will make it too much like Swindon centre, which is terrible

Replacement of all dead saplings on Beckett Strand

Comments

Not to be over developed. Stop building prison block houses and have more unique designs

A village with a centre, green spaces and well kept

Separate

Would like Wroughton to look like id did before 2000 - more services, less development

No more housing. Pavements suitable for wlaking - Priors Hill in disgusting state

Peaceful, green, tidy and well kept

Wroughton should have no more developments of surrounding fields - Cop-op shop is suitable

No bigger than it is now, with lovely well-lit walks along the canal. Good access to schools, healthcentre and community events

Separated from Wichelstowe

With enough infrastructure to support the population

Fewer large developments

Litter free, clean, thriving with lots of clubs etc. Dedicated services for Wichelstowe - doctors, communty centres etc

As it is now

Better bicycle and path links, and hopefully not much more expansion

Stay much the same as now

No bigger than it is now - I will be leaving if it continues to grow. I moved here to be part of a village, not Swindon sprawl

Clean

Like Wroughton to still be a village. Wichelstowe is already too modern - looks horrible

No further development until Wichelstowe has been completed

Each to have its own doctors surgery before any more houses are built

For both to have the correct infrastructure to support the people who live there and no further development

All building of houses stopped in Wroughton. Less flats in Wichelstowe. Keep Wroughton as a village

Each to have its own facilities and better public transport between them

Clean, without weeds in gutters, especially Wroughton High Street

As it is now with no more housing and proper health facilities. It's unfair for Wichelstowe residents to have to use the Wroughton doctors

Less 'shedville' building

No further large scale developments

It's a lovely village as it is. Maybe more people getting involved in the carnival

A thriving village and a thriving community in Wichelstowe

No further development in the area - Wichelstowe is much bigger than I thought it was going to be

Village with lots of green spaces and trees and to continue to be a pleasure to live in

Maintain village environment, green spaces, trees, walking areas. No overdevelopment

Slower car speeds

To be separate parishes

Comments

No larger than now

To stay the same

No more houses. Better infrastructure. More green spaces

With its own character not swallowed up by Swindon. And not just a place to dump solar panels

A comfortable area for families to live. A modern and green community

No more house building

Like it does today

To have more open spaces and not build houses on every available green spaces

No more houses

Two villages with sufficient infrastructure for young and elderly and plenty of green spaces not taken up by more housing

Keep and improve green spaces. Better public transport connectivity. Cleaner public spaces and public toilets

Smaller - we in Wroughton need our village back

Restrict noise levels from Fox and Hounds outside entertainment - it can be heard across whole village. More visible policing and record speeding

Vibramt, strong community, limited housing expansion that still has a village feel

Cleaner, better roads, more attractive (flowers and planters)

No more estates in Wroughton, better maintained with better health and school facilities. Wichelstowe to have own doctors and parish council

Keep a village appearance

No more large housing estates around Wroughton. House building and infrastructure to be complete in Wichelstowe

Retain boundaries and not expand too much to keep village status

Tidier

A lot better than it does now - it looks tired, old and in need of some TLC, especially the roads, pavements and zebra crossings

Vibtant, interconnected, thriving, welcome and green

Hopefully boyant

Wroughton needs lovely shops in the High Street

For Wroughton and Wichelstowe to be two separate parishes

Each area to have its own identity. Wroughton to keep a village feel

Wroughton to keep its village feel - not bothered about Wichelstowe, hopefully it won't grow too much to be a concrete jungle

To hold its character, sustainability and be a healthy place to live and work

The same with no more housing developments

Tidy

Speed humps between the traffic lights at Wharf Road and the top of Church Hill

Wichelstowe will be a well-connected whole community and not part of Wroughton. Wroughton will expand south to the Downs

Not to grow too much. Retain village identity and not become part of Swindon

Comments

Better road surfaces, better parking near Ridgeway School

End of house building and a doctor's surgery in Wichelstowe

For Wroughton to stay as a village with its own services

Lots of green spaces and trees

Still a village feel

Traditional English village

A place where people come for the attractions

No more housing, better support for local shopping and good bus links

Wroughton without Wichelstowe

No bigger with all pubs still open

Wroughton to maintain its village

Separate, with their own services and identities

No more houses built in Wroughton, keep green spaces and character of village

Similar green space. Safer pavements. Cleaner. Better public transport

No more house building. Less speeding traffic. Parks and green spaces well tended. Facilities for youngsters to keep them occupied

Separate

Green spaces - no more housing

No bigger than they are now. Another or larger healthcentre

Wroughton and Wichelstowe should have its own neighbourhood plans

Not any larger, new GP's surgery and a path connecting Wroughton anf Wichelstowe along Wharf Road

Doctor's surgery for Wichelstowe

For the new doctor's surgery to have been built abd in operation. Housing development kept to a minimum

No more housing developments

More shops

Fly tipping needs tackling and we can't cope with huge numbers of people

Better roads, no more houses being built and better healthcare provision

Greener

The same as it does now

The same as it does now

If we must have more housing, no to apartments shooting up as in Wichelstowe

Cleaner and tidier

No increase in Wroughton's population after the end of this year. Fewer cars on the roads. An emphasis on tree planting, wildflower areas and climate change

Clean, tidy and safe

I think we need to encouarge the two districts to join together more

Have its own identity that's separate from Swindon

Retaining a village identity

Similar to how it looks now

Comments

A mixture of house types

Old Co-op site occupied, GP surgery in Wichelstowe and a commitment to no further development

Wichelstowe will have grown but Wroughton should stay as it is

Village

Communication of parish activities that promoye community togetherness across the new developments

Infrastructure must be upgraded if the number of people increases. It's too hard to get an appointment at the GP surgery in Wroughton

Green and pleasant

Similar to now with a mix of village and countryside

No bigger than it is now

No further large housing developments. Better range of independent shops. Well kept public spaces

Wroughton kept as a village

Well kept, tidy and not covered with crammed-in housing

With a bypass and no future housing

Clean and tidy

Independent of each other

Still retaining a village character separate from Swindon

No more housing. Fewer weeds and overgrowth on roads

Tidier

Wroughton needs its own identity

No more houses - we want to keep a village feel

Split Wroughton and Wichelstowe up and make Wroughton a village again

Better/more walking and cycling routes. Better public transport. No more housing developments

Nature areas preserved with a nature park with facilities in close proximity. Hopefully canal path to Bassett will be established

Still a village, we do not want to be part of Swindon

Completed canal path with housing overlooking it. Well maintained roads and footpaths

Smart

Lots of green space, health facilities, local shops

No wichelstowe

Less houses and more green spaces, parks and more trees

No more building and protecting large green areas

New health centre

For Wroughton not to be a suburb of Swindon

Remaining separate from Swindon

Similar to now but with better facilities

All the shop units being used

Comments

The same

Bigger supermarkets, more sports facilities and more trees

Separate parishes

We need to connect the parish

Wroughton's heritage protected

Put people first, not machines - an area not consumed by cars

Not substabtially different

For Wroughton to still be a village and not part of Swindon
