

RE: Wroughton Moat Pond

Dear Oli

Thank you for your enquiry. We can most certainly create a management plan for your pond. We normally work by carrying out a preliminary site assessment, on site with stakeholders present. Then from the information that we gain during the site assessment we can put together a 5 year management plan. The cost for this service will be £400 + VAT.

If this is something that you would like to book in then by all means we can do so. However, we are away on annual leave from tomorrow until April 12th. We will then have free time available from mid to late April and in to May.

Should you wish to take this up then any maps, documents, or existing management plans would be very useful to have.

I look forward to hearing from you soon.

Regards

Nick Self

Subject: Wroughton Moat Pond

Good morning,

I have been passed your contact details by my colleague who believes you will be able to assist with the creation of a site specific maintenance plan to support and enhance biodiversity at the above site.

Wroughton Parish Council requires a quote for the creation of such a plan works to be considered at a future meeting. I am unsure what details you will need to create a quote so please let me know if there is any specific information I may be able to help with?

If you have any questions or would like to have a site visit please contact me.

Kind regards,

Oliver Armstrong
