Dear Ms Freemantle

Re: Wroughton Cemetery

Following our meeting with you our discussions around the maintenance of the above churchyard, I have met with the team and can confirm that it is our intention to allow the closed cemetery to re wild with a maintenance cut and removal of arisings once per annum, which is in keeping with the other cemetery's that we maintain. This will include the bottom section of the cemetery. We will plant a mixed species of wildflower to assist with biodiversity and contribute to the Councils Carbon reduction agenda. The trees within the cemetery will be adopted under the terms of the Tree Maintenance Policy.

Yours sincerely

Brian Pinchbeck
Director of Operations
