Subject: 5th Birthday

Hi Emma,

I hope you're well. Can you believe it, this June is the 5th anniversary for the pump track! We're hoping to make the 'birthday jam' a little more special this year. I'm hoping to get some funding from Access Sport to run a free Bmxercise session in the morning, followed by a kids event. I've been working with AC and British Cycling on a mini series in Bristol. Kids turn up for a free coaching session then there are seeding timed runs for a mini head to head race. They've been working really well and it's a lovely way to engage local kids. I'll need to get some volunteers on hand to help, but I'll have my fleet of bikes for kids to take turns borrowing if they don't have bikes. Then we're hoping to have the 'birthday jam' like last year where riders turn up to show off their skills.

If this is ok, please can we use the carpark and pavilion toilets? We'll have some music, as usual, an ice cream van and I was going to speak to the local football club to see if they wanted to do a BBQ to raise funds for the club.

Should be a lovely community event!

Let me know and I'll lock in the date: Saturday 17 June.

Many thanks,

Jennifer
