Emma,

Many thanks again to you and the Council for approval and payment of the earlier £15,000 Grant received in November.

As you are aware the Trust has encountered several exceptional costs in the last weeks for which we seek a further £5,000, for the same financial year.

You'll be aware of other recent and upcoming exceptional costs such as the boiler replacement and roof/solar panel works which will be funded from balances or other grant applications, not from WPC.

We hope this application will be considered favourably.

Thanks

Gareth Jones
