PLANNING & HIGHWAYS COMMITTEE MEETING 20TH MARCH 2024

Local Nature Recovery Strategy (LNRS) - Update from Cllr Holly Woodward

Diane and I attended this yesterday (5th March 2024). It was a very generic brainstorm session on what issues concerned people in relation to natural spaces in Wiltshire, and there were no real takeaways. Both Diane and I stressed the importance of improving flood management and potentially using more natural methods of flood defence. The session leaders are planning to collate all the info gained over the three sessions into a document, which will then be subject to a public questionnaire before they turn it into a strategy document. The ultimate aim is to have a list of potential opportunities ready for when grant money becomes available to spend on nature recovery. As regards Wroughton itself, we are just a very small cog in a big wheel, but it was useful to be able to input our ideas into the overall discussion.
