

Wichelstowe - Update on Community Centre & Sports Area from Rob Powe

Community Centre

- We are still awaiting comments from a number of consultees on the initial planning application, in particular feedback from the Council's urban design and landscape teams hasn't yet been provided.
- Once the planning application feedback is received we will work with the design team to address comments. At this stage we will also pick up the points that the Parish Council raised with us at our last meeting

Sports Area

- The JV Board have agreed to pay an element of the S106 contribution early and we are working through the logistics of this with the Council's S106 Officer
- A pre-application submission has been made to the local planning authority to determine what information they will be seeking to support the planning application and we are awaiting their feedback
- We have been seeking quotes for an updated topographical survey of the area and this will hopefully be progressed prior to our meeting
- A tender has also been issued to appoint a consultant to develop the design for the area.

Weds 15th May 2024 at 6.15pm in the Alex Room (prior to Planning meeting):
Quarterly update meeting with Rob Powe and Emma Leake.
