

BMX Wroughton have carried out the following tasks this year:

- Painting over graffiti on the track as and when it occurs - 3 times this winter
- Early Spring treatment of the track for moss growing through
- Re-dug the drainage trenches to eradicate puddles
- Successful application for £4000 grant to pay for track repairs

It's great to see the track still being used regularly by a variety of riders. Hopefully this lovely weather will encourage more riders to the track in the evenings.

We would like to take this opportunity to thank Wroughton Parish Council for the continued support.
