Hi Peter here is the quote to fix your damaged pergola

So basically i have to take the sheets out because i wont be able to replace the timber without taking the sheets off

There needs to be replaced 3 timbers , and then put the sheets back on top again

So for me to do all the work will be £500 including everything

If you have any another questions feel free to call or text me anytime

Also if you like the quote and you want to proceed with work let me know as soon as you can so i can book you in the work dairy

Many thanks
Sadri
