Subject: Wroughton Bowls Club

Good afternoon, Emma.

May I enquire about two items, please.

Do you happen to have an update on the path problem?

Currently the Bowls Club is facing a difficult problem? Our regular contractors have decided to cease cutting the green when their contract expires in the new year. They have left us no choice. We have decided to purchase the appropriate special mowers and maintain the green/ cutting with volunteers. However, with a vast majority of the membership of a very mature age this might not be very easy. At the height of the season May - Sep the green would need to be cut every Mon/Wed/ Fri . It is estimated that a cut could be undertaken in about an hour. Therefore, is it feasible for the cutting of the green to be undertaken by the Parish Ground Maintenance Team once or twice a week. Payment would have to be considered. There are other options, but this idea should not be overlooked.

Regards

.
