PO Number:

WO Number:

Dear Emma,

Further to your recent enquiry and my subsequent site visit, we now have pleasure in submitting our quotation for your consideration.

To provide all necessary labour and materials to carry out the following works in line with current Health & Safety Legislation.

Create a safe working environment and barrier off to prevent any unauthorised pedestrian access.
Take down and lay aside five manually operated 'push-up' type window roller shutters in readiness for removal from site for disposal.

To supply, install and site wire 5 x SC1 Commercial type Window Roller Shutters
Constructed from 75mm curved, 22swg galvanised steel laths with cold rolled side guide channels, 'T' section bottom rails and hoods all completed in a polyester powder coated finish available from our standard RAL colour range

The shutters to be powered via 1ph, 240v tubular motors with Health & Safety compliant safety brakes, Ellard's fitters' mates with activation via internally positioned push button stations.

N. B
Within our quotation, we have allowed for the hire of a skip for removal from site of the existing roller shutter door. However, if you wish to organise this aspect of the works there will be a saving of **£450.00 + VAT** from our quoted price.

Replacement timber window seals for the shutters to sit upon when closed and the installation of 13amp fused spurs positioned adjacent to each shutter location, by others.

Terms of payment: Nett cash monthly against approved account.

Price valid for 28 days

We look forward to receiving your valued instruction to proceed in due course.

Yours Faithfully

Steve White
