Subject: Gas mains replacement works - Wroughton

Hi Katie

As discussed please see attached programme for our gas main replacement works in Wroughton / as you can see we will be starting at Woodland View working towards Devizes Rd / Marlborough Rd - have had discussions on site with Swindon BC who have agreed that we can stretch lights out to maximum 150m length at any one time - we will be inserting the new PE pipe inside existing metallic main and renewing or transferring all services onto the new main - all customers will have been notified by letter informing them that we will need to interrupt supplies at some point

I will ensure our Comms team get something out on social media this afternoon / tomorrow morning

As I say I don't work Mondays or Fridays but am more than happy to call out and discuss works with you next week if that works for you / once again I do apologise as feel I should have been in touch with yourselves 3 or 4 weeks ago just so that you would have been aware a lot earlier

If you have any queries, please do not hesitate to call me

@Adam Westlake – have you done the pre door knock on this one yet ???

Regards

Mick
